According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

Trade name : Diethylene Glycol Product code : U1237, U1239

Registration number EU : 01-2119457857-21-0001, 01-2119457857-21-0003

Synonyms : 2,2' Dihydroxy diethyl ether, bis (2-hydroxyethyl) ether, DEG,

Diglycol, Digol, Ethylene diglycol

CAS-No. : 111-46-6

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub- : Chemical intermediate.

stance/Mixture Please refer to section 16 and/or the annexes for the regis-

tered uses under REACH.

Uses advised against : This product must not be used in applications other than the

above without first seeking the advice of the supplier., Do not use in the manufacture or preparation of foods or pharmaceuticals., Keep out of reach of children and pets., Do not use in theatrical fogs or other artificial smoke generator applications.,

Do not use in aircraft deicing applications.

This product must not be used in applications other than those listed in Section 1 without first seeking the advice of the sup-

plier.

#### 1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier : Shell Chemicals Europe B.V.

PO Box 2334 3000 CH Rotterdam

Netherlands

Telephone : +31 (0)10 441 5137 / +31 (0)10 441 5191 Telefax : +31 (0)20 716 8316/ +31 (0)20 713 9230

Contact for Safety Data : sccmsds@shell.com

Sheet

#### 1.4 Emergency telephone number

+44 (0) 1235 239 670 (This telephone number is available 24 hours per day, 7 days per week)

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

#### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

#### Classification (REGULATION (EC) No 1272/2008)

Acute toxicity, Category 4, Oral H302: Harmful if swallowed.

#### 2.2 Label elements

## Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms

Signal word : Warning

Hazard statements : PHYSICAL HAZARDS:

Not classified as a physical hazard according to CLP

criteria.

HEALTH HAZARDS: H302 Harmful if swallowed.

**ENVIRONMENTAL HAZARDS:** 

Not classified as environmental hazard according to

CLP criteria.

Precautionary statements : Prevention:

P264 Wash skin thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

Response:

P301 + P312 IF SWALLOWED: Call a POISON CENTER/

doctor if you feel unwell. P330 Rinse mouth.

Storage:

No precautionary phrases.

Disposal:

P501 Dispose of contents/ container to an approved waste

disposal plant.

#### 2.3 Other hazards

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Slightly irritating to the skin.

Slightly irritating to respiratory system.

Slightly irritating to the eye.

Vapours may be irritating to the eye.

## **SECTION 3: Composition/information on ingredients**

#### 3.1 Substances

Components

Componente			
Chemical name	CAS-No.	Classification	Concentration
	EC-No.	REGULATION (EC)	(% w/w)
	Index-No.	No 1272/2008	, ,
	Registration number		
Diethylene glycol	111-46-6	Acute Tox. 4; H302	95 - 100
	203-872-2		
	603-140-00-6		
	01-2119457857-21		

#### **Further information**

#### Contains:

Chemical name	Identification number	Classification	Concentration (% w/w)
Ethanediol	107-21-1, 203-473- 3	Acute Tox.4; H302 STOT RE2; H373	<= 0,15

## **SECTION 4: First aid measures**

## 4.1 Description of first aid measures

General advice : Not expected to be a health hazard when used under normal

conditions.

Protection of first-aiders : When administering first aid, ensure that you are wearing the

appropriate personal protective equipment according to the

incident, injury and surroundings.

If inhaled : No treatment necessary under normal conditions of use. If

symptoms persist, obtain medical advice.

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: - 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

In case of skin contact : Remove contaminated clothing. Flush exposed area with wa-

ter and follow by washing with soap if available.

If persistent irritation occurs, obtain medical attention.

In case of eye contact : Flush eye with copious quantities of water.

Remove contact lenses, if present and easy to do. Continue

rinsing.

If persistent irritation occurs, obtain medical attention.

If swallowed : If swallowed, do not induce vomiting: transport to nearest

medical facility for additional treatment. If vomiting occurs spontaneously, keep head below hips to prevent aspiration.

Rinse mouth.

#### 4.2 Most important symptoms and effects, both acute and delayed

Symptoms : Not considered to be an inhalation hazard under normal con-

ditions of use.

Possible respiratory irritation signs and symptoms may include a temporary burning sensation of the nose and throat, cough-

ing, and/or difficulty breathing.

No specific hazards under normal use conditions.

Skin irritation signs and symptoms may include a burning sen-

sation, redness, or swelling.

Eye irritation signs and symptoms may include a burning sen-

sation, redness, swelling, and/or blurred vision.

Ingestion may result in nausea, vomiting and/or diarrhoea. High concentrations may cause central nervous system depression resulting in headaches, dizziness and nausea; continued inhalation may result in unconsciousness and/or death. Kidney toxicity may be recognized by blood in the urine or increased or decreased urine flow. Other signs and symptoms can include nausea, vomiting, abdominal cramps, diarrhoea, lumbar pain shortly after ingestion, and possibly narcosis and

death.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Treatment : IMMEDIATE TREATMENT IS EXTREMELY IMPORTANT!

Call a doctor or poison control center for guidance.

Treat symptomatically.

May cause significant renal, respiratory, and CNS toxicity.

May cause significant acidosis.

#### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

Suitable extinguishing media : Alcohol-resistant foam, water spray or fog. Dry chemical pow-

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version 1.0

Revision Date.: 19.09.2025

SDS Number: 800001033914

Date of last issue: -Print Date. 21.09.2025

der, carbon dioxide, sand or earth may be used for small fires

only.

Unsuitable extinguishing

media

Do not use water in a jet.

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire-

fighting

Material will not burn unless preheated.

Carbon monoxide may be evolved if incomplete combustion

occurs

Containers exposed to intense heat from fires should be

cooled with large quantities of water.

5.3 Advice for firefighters

Special protective equipment :

for firefighters

Proper protective equipment including chemical resistant gloves are to be worn; chemical resistant suit is indicated if large contact with spilled product is expected. Self-Contained Breathing Apparatus must be worn when approaching a fire in a confined space. Select fire fighter's clothing approved to

relevant Standards (e.g. Europe: EN469).

Specific extinguishing meth-

ods

Standard procedure for chemical fires.

Further information : Evacuate the area of all non-essential personnel.

Keep adjacent containers cool by spraying with water.

#### **SECTION 6: Accidental release measures**

## 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions

Observe all relevant local and international regulations.

Notify authorities if any exposure to the general public or the

environment occurs or is likely to occur.

Local authorities should be advised if significant spillages

cannot be contained.

6.1.1 For non emergency personnel:
Avoid contact with skin, eyes and clothing.

6.1.2 For emergency responders:

Avoid contact with skin, eyes and clothing.

6.2 Environmental precautions

Environmental precautions : Prevent from spreading or entering into drains, ditches or riv-

ers by using sand, earth, or other appropriate barriers.

Use appropriate containment to avoid environmental contami-

nation.

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

Ventilate contaminated area thoroughly.

#### 6.3 Methods and material for containment and cleaning up

Methods for cleaning up : Contain run-off from residue flush and dispose of properly.

Soak up residue with an absorbent such as clay, sand or other

suitable material.

For small liquid spills (< 1 drum), transfer by mechanical means to a labeled, sealable container for product recovery or safe disposal. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove

contaminated soil and dispose of safely.

For large liquid spills (> 1 drum), transfer by mechanical means such as vacuum truck to a salvage tank for recovery or safe disposal. Do not flush away residues with water. Retain as contaminated waste. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove contaminated soil and dispose of safely

#### 6.4 Reference to other sections

For guidance on selection of personal protective equipment see Section 8 of this Safety Data Sheet., For guidance on disposal of spilled material see Section 13 of this Safety Data Sheet.

#### **SECTION 7: Handling and storage**

#### 7.1 Precautions for safe handling

Technical measures : Avoid breathing of or direct contact with material. Only use in

well ventilated areas. Wash thoroughly after handling. For guidance on selection of personal protective equipment see

Section 8 of this Safety Data Sheet.

Use the information in this data sheet as input to a risk assessment of local circumstances to help determine appropriate controls for safe handling, storage and disposal of this material.

Ensure that all local regulations regarding handling and stor-

age facilities are followed.

Advice on safe handling : Use local exhaust extraction over processing area.

Handle and open container with care in a well-ventilated area.

Do not empty into drains.

When handling product in drums, safety footwear should be worn and proper handling equipment should be used.

Handling Temperature:

Ambient.

Product Transfer : Keep containers closed when not in use. Do not pressurize

drum containers to empty.

Hygiene measures : Wash hands before eating, drinking, smoking and using the

toilet. Launder contaminated clothing before re-use.

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

#### 7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers

: Refer to section 15 for any additional specific legislation cov-

ering the packaging and storage of this product.

Further information on stor-

age stability

Tanks must be clean, dry and rust-free.

Keep container tightly closed.

Must be stored in a diked (bunded) well- ventilated area, away from sunlight, ignition sources and other sources of heat.

Cleaning, inspection and maintenance of storage tanks is a specialist operation, which requires the implementation of

strict procedures and precautions.

Drums should be stacked to a maximum of 3 high.

Storage Temperature:

Ambient.

Packaging material : Suitable material: Stainless steel., Mild steel., Carbon steel

Unsuitable material: Data not available

Container Advice : Containers, even those that have been emptied, can contain

explosive vapours. Do not cut, drill, grind, weld or perform

similar operations on or near containers.

7.3 Specific end use(s)

Specific use(s) : Please refer to section 16 and/or the annexes for the regis-

tered uses under REACH.

Ensure that all local regulations regarding handling and stor-

age facilities are followed.

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

#### **Occupational Exposure Limits**

Components	CAS-No.	Value type (Form of exposure)	Control parameters	Basis
Diethylene glycol	111-46-6	GVI	23 ppm 101 mg/m3	HR OEL
Ethanediol	107-21-1	STEL	40 ppm 104 mg/m3	HR OEL
	Further information: Classified as a substance that irritates the skin (H315) or such notice is given in the directives, 2000/39/EU			
Ethanediol		GVI	20 ppm 52 mg/m3	HR OEL
	Further information: Classified as a substance that irritates the skin (H315) or such notice is given in the directives, 2000/39/EU			

#### Biological occupational exposure limits

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: - 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

No biological limit allocated.

#### Derived No Effect Level (DNEL) according to Regulation (EC) No. 1907/2006:

Substance name	End Use	Exposure routes	Potential health effects	Value
Diethylene glycol	Workers	Dermal	Long-term systemic effects	43 mg/kg bw/day
Diethylene glycol	Workers	Inhalation	Long-term local ef- fects	60 mg/m3
Diethylene glycol	Consumers	Dermal	Long-term systemic effects	21 mg/kg bw/day
Diethylene glycol	Consumers	Inhalation	Long-term local ef- fects	12 mg/m3

#### Predicted No Effect Concentration (PNEC) according to Regulation (EC) No. 1907/2006:

Substance name		Environmental Compartment	Value
Diethylene glycol			
Remarks:	Exposure	assessments have not been presented for the	environment
	therefore	PNEC values not required.	

### 8.2 Exposure controls

#### **Engineering measures**

The level of protection and types of controls necessary will vary depending upon potential exposure conditions. Select controls based on a risk assessment of local circumstances. Appropriate measures include:

Adequate ventilation to control airborne concentrations.

Where material is heated, sprayed or mist formed, there is greater potential for airborne concentrations to be generated.

Eye washes and showers for emergency use.

#### **General Information**

Always observe good personal hygiene measures, such as washing hands after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Practice good housekeeping.

Define procedures for safe handling and maintenance of controls.

Educate and train workers in the hazards and control measures relevant to normal activities associated with this product.

Ensure appropriate selection, testing and maintenance of equipment used to control exposure, e.g. personal protective equipment, local exhaust ventilation.

Drain down system prior to equipment break-in or maintenance.

Retain drain downs in sealed storage pending disposal or subsequent recycle.

#### Personal protective equipment

Read in conjunction with the Exposure Scenario for your specific use contained in the Annex. The provided information is made in consideration of the PPE directive (Council Directive 89/686/EEC) and the CEN European Committee for Standardisation (CEN) standards.

Personal protective equipment (PPE) should meet recommended national standards. Check with

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: - 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

PPE suppliers.

Eye protection : If material is handled such that it could be splashed into eyes,

protective eyewear is recommended. Approved to EU Standard EN166.

Hand protection

Remarks : Where hand contact with the product may occur the use of

gloves approved to relevant standards (e.g. Europe: EN374, US: F739) made from the following materials may provide suitable chemical protection. Longer term protection: Nitrile rubber gloves. Incidental contact/Splash protection: PVC or neoprene rubber gloves. For continuous contact we recommend gloves with breakthrough time of more than 240 minutes with preference for > 480 minutes where suitable gloves can be identified. For short-term/splash protection we recommend the same but recognize that suitable gloves offering this level of protection may not be available and in this case a lower breakthrough time maybe acceptable so long as appropriate maintenance and replacement regimes are followed. Glove thickness is not a good predictor of glove resistance to a chemical as it is dependent on the exact composition of the glove material. Glove thickness should be typically greater than 0.35 mm depending on the glove make and model. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Personal hygiene is a key element of effective hand care. Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly. Application of a non-perfumed moisturizer is recommended.

Skin and body protection

Skin protection is not ordinarily required beyond standard

work clothes.

It is good practice to wear chemical resistant gloves. Protective clothing approved to EU Standard EN14605.

Respiratory protection

If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation. Check with respiratory protective equipment suppliers. Where air-filtering respirators are unsuitable (e.g. airborne concentrations are high, risk of oxygen deficiency, confined space) use appropriate positive pressure breathing apparatus.

Where air-filtering respirators are suitable, select an appropriate combination of mask and filter.

If air-filtering respirators are suitable for conditions of use: Select a filter suitable for the combination of organic gases

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

and vapours and particles meeting EN14387 and EN143 [Filter type A/P for use against certain organic gases and vapours with a boiling point >65°C (149°F) and for use

against particles].

Thermal hazards : Not applicable

## **SECTION 9: Physical and chemical properties**

#### 9.1 Information on basic physical and chemical properties

Physical state : Slightly viscous liquid.

Colour : colourless Odour : mild

Odour Threshold : Data not available

Melting point/freezing point : -10 °C

Boiling point/boiling range : 244 - 250 °C

Flammability

Flammability (solid, gas) : Not applicable

Lower explosion limit and upper explosion limit / flammability limit

Upper explosion limit / Upper flammability limit

10,8 %(V)

1,6 %(V)

Lower explosion limit /

Lower flammability limit

Flash point : 149 °C

Method: Pensky-Martens closed cup

Auto-ignition temperature : 365 °C

Decomposition temperature

Decomposition tempera: Data not available

ture

pH : Not applicable

Viscosity

Viscosity, dynamic : Data not available

Viscosity, kinematic : 33 mm2/s (20 °C)

Method: ASTM D445

Solubility(ies)

Water solubility : completely soluble

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

Partition coefficient: n-

octanol/water

: log Pow: -1,98

Vapour pressure : < 1,3 Pa (20 °C)

Relative density : 1,12

Method: ASTM D4052

Density : 1.116 g/cm3 (20 °C)

Method: ASTM D4052

Relative vapour density : 3,7

Particle characteristics

Particle size : Data not available

9.2 Other information

Explosive properties : Not applicable

Oxidizing properties : Data not available

Evaporation rate : < 0,01

Method: ASTM D 3539, nBuAc=1

Conductivity: > 10,000 pS/m

A number of factors, for example liquid temperature, presence of contaminants, and anti-static additives can greatly influence the conductivity of a liquid, This material is not expected to be

a static accumulator.

Surface tension : Data not available

Molecular weight : 106,12 g/mol

## **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

The product does not pose any further reactivity hazards in addition to those listed in the following sub-paragraph.

#### 10.2 Chemical stability

No hazardous reaction is expected when handled and stored according to provisions Oxidises on contact with air.

#### 10.3 Possibility of hazardous reactions

Hazardous reactions : None known.

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: - 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

10.4 Conditions to avoid

Conditions to avoid : Extremes of temperature and direct sunlight.

Product cannot ignite due to static electricity.

10.5 Incompatible materials

Materials to avoid : Strong oxidising agents.

Strong acids. Strong bases.

#### 10.6 Hazardous decomposition products

Thermal decomposition is highly dependent on conditions. A complex mixture of airborne solids, liquids and gases including carbon monoxide, carbon dioxide, sulphur oxides and unidentified organic compounds will be evolved when this material undergoes combustion or thermal or oxidative degradation.

## **SECTION 11: Toxicological information**

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Information on likely routes of : Exposure may occur via inhalation, ingestion, skin absorption,

exposure skin or eye contact, and accidental ingestion.

**Acute toxicity** 

**Components:** 

Diethylene glycol:

Acute oral toxicity : LD 50 (Rat, male and female): > 5.000 mg/kg

Method: Literature data

Remarks: Harmful if swallowed.

There is a marked difference in acute oral toxicity between rodents and man, man being more susceptible than rodents. The estimated fatal dose for man is 100 milliliters (1/2 cup). This material has also been shown to be toxic and potentially

lethal by ingestion to cats and dogs.

Acute inhalation toxicity : LC 50 (Rat): Exposure time: 4 h

Test atmosphere: Aerosol Method: Literature data

Remarks: LC50 greater than near-saturated vapour concen-

tration.

Based on available data, the classification criteria are not met.

Acute dermal toxicity : LD 50 (Rabbit): > 5.000 mg/kg

Method: Literature data

Remarks: Based on available data, the classification criteria

are not met.

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

#### Skin corrosion/irritation

### **Components:**

#### Diethylene glycol:

Species : Rabbit

Method : Literature data

Remarks : Based on available data, the classification criteria are not met.

#### Serious eye damage/eye irritation

#### **Components:**

#### Diethylene glycol:

Species : Rabbit

Method : Literature data

Remarks : Based on available data, the classification criteria are not met.

## Respiratory or skin sensitisation

#### **Components:**

#### Diethylene glycol:

Species : Guinea pig

Method : Regulation (EC) No. 440/2008, Annex, B.6

Remarks : Based on available data, the classification criteria are not met.

Method : Tested according to Annex V of Directive 67/548/EEC.

#### Germ cell mutagenicity

### **Components:**

# Diethylene glycol:

Genotoxicity in vitro : Method: OECD Test Guideline 471

Remarks: Based on available data, the classification criteria

are not met.

Method: OECD Test Guideline 473

Remarks: Based on available data, the classification criteria

are not met.

Method: OECD Test Guideline 476

Remarks: Based on available data, the classification criteria

are not met.

Method: OECD Test Guideline 479

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

Remarks: Based on available data, the classification criteria

are not met.

Genotoxicity in vivo : Species: Mouse

Method: OECD Test Guideline 474

Remarks: Based on available data, the classification criteria

are not met.

Germ cell mutagenicity- As-

sessment

This product does not meet the criteria for classification in

categories 1A/1B.

#### Carcinogenicity

#### **Components:**

## Diethylene glycol:

Species : Rat, male and female

Application Route : Oral

Method : Literature data

Remarks : Based on available data, the classification criteria are not met.

Tumours produced in animals are not considered relevant to

humans.

Carcinogenicity - Assess-

ment

This product does not meet the criteria for classification in

categories 1A/1B.

Material	GHS/CLP Carcinogenicity Classification
Diethylene glycol	No carcinogenicity classification.
Ethanediol	No carcinogenicity classification.

#### Reproductive toxicity

# Components:

#### Diethylene glycol:

Effects on fertility : Species: Mouse

Sex: male and female Application Route: Oral

Method: Acceptable non-standard method.

Remarks: Based on available data, the classification criteria

are not met.

Reproductive toxicity - As-

sessment

This product does not meet the criteria for classification in

categories 1A/1B.

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

#### STOT - single exposure

#### **Components:**

### Diethylene glycol:

Remarks : Based on available data, the classification criteria are not met.

Inhalation of vapours or mists may cause irritation to the res-

piratory system.

Ingestion may cause drowsiness and dizziness.

#### STOT - repeated exposure

## **Components:**

Diethylene glycol:

Remarks : Based on available data, the classification criteria are not met.

#### Repeated dose toxicity

## **Components:**

## Diethylene glycol:

Species : Rat, male and female

Application Route : Oral

Method : Acceptable non-standard method.
Target Organs : No specific target organs noted

NOAEL : 300 mg/kg Exposure time : 98 Days

LOAEL : 1500 mg/kg Exposure time : 98 Days

Species : Dog, male Application Route : Dermal

Method : OECD Test Guideline 410
Target Organs : No specific target organs noted

NOAEL : 4440 mg/kg

LOAEL : 8880 mg/kg

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

#### **Aspiration toxicity**

#### Components:

#### Diethylene glycol:

Based on available data, the classification criteria are not met.

#### 11.2 Information on other hazards

## **Endocrine disrupting properties**

#### **Product:**

Assessment : The substance/mixture does not contain components consid-

ered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at

levels of 0.1% or higher.

#### **Further information**

**Product:** 

Remarks : Unless indicated otherwise, the data presented is representa-

tive of the product as a whole, rather than for individual com-

ponent(s).

#### **Components:**

Diethylene glycol:

Remarks : Classifications by other authorities under varying regulatory

frameworks may exist.

## **SECTION 12: Ecological information**

#### 12.1 Toxicity

#### **Components:**

#### Diethylene glycol:

Toxicity to fish : LC50 (Pimephales promelas (fathead minnow)): > 100 mg/l

Exposure time: 96 h Method: Literature data. Remarks: Practically non toxic:

Method: Other guideline method. Remarks: LL/EL/IL50 > 100 mg/l

Toxicity to daphnia and other : EC50 (Daphnia magna (Water flea)): > 100 mg/l

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: - 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

aquatic invertebrates Exposure time: 48 h

Method: Other guideline method. Remarks: Practically non toxic: LL/EL/IL50 > 100 mg/l

Toxicity to algae/aquatic plants : EC50 (Scenedesmus quadricauda (Green algae)): > 100 mg/l

Exposure time: 72 h

Method: Information given is based on data obtained from

similar substances.

Remarks: Practically non toxic: LL/EL/IL50 > 100 mg/l

Toxicity to microorganisms : EC20 (Activated sludge, domestic waste): > 1.000 mg/l

Exposure time: 3 h

Method: Test(s) equivalent or similar to OECD Guideline 209

Remarks: Practically non toxic: LL/EL/IL50 > 100 mg/l

Toxicity to fish (Chronic tox-

icity)

NOEC: > 40 mg/l Exposure time: 28 d

Species: Pimephales promelas (fathead minnow)

Method: Information given is based on data obtained from

similar substances.

Remarks: NOEC/NOEL > 100 mg/l

Toxicity to daphnia and other : aquatic invertebrates (Chron-

ic toxicity)

NOEC: > 100 mg/l

Species: Ceriodaphnia dubia (Water flea)

Method: Information given is based on data obtained from

similar substances.

Remarks: NOEC/NOEL > 100 mg/l

#### 12.2 Persistence and degradability

### Components:

Diethylene glycol:

Biodegradability : Biodegradation: 70 - 80 %

Exposure time: 28 d

Method: OECD Test Guideline 301B Remarks: Inherently biodegradable.

## 12.3 Bioaccumulative potential

## **Components:**

Diethylene glycol:

Bioaccumulation : Remarks: Does not bioaccumulate significantly.

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

#### 12.4 Mobility in soil

#### Components:

## Diethylene glycol:

Mobility : Remarks: If the product enters soil, one or more constituents

will or may be mobile and may contaminate groundwater.,

Dissolves in water.

#### 12.5 Results of PBT and vPvB assessment

#### **Components:**

#### Diethylene glycol:

Assessment : The substance does not fulfill all screening criteria for persis-

tence, bioaccumulation and toxicity and hence is not consid-

ered to be PBT or vPvB..

#### 12.6 Endocrine disrupting properties

#### **Product:**

Assessment : The substance/mixture does not contain components considered to

have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

#### 12.7 Other adverse effects

#### **Product:**

Additional ecological infor-

mation

Unless indicated otherwise, the data presented is representative of the product as a whole, rather than for individual component(s).

#### **Components:**

#### Diethylene glycol:

Additional ecological infor-

mation

: Data not available

#### **SECTION 13: Disposal considerations**

## 13.1 Waste treatment methods

Product : Recover or recycle if possible.

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste classification and disposal meth-

ods in compliance with applicable regulations.

Remove all packaging for recovery or waste disposal.

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: - 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

Waste product should not be allowed to contaminate soil or ground water, or be disposed of into the environment. Do not dispose of tank water bottoms by allowing them to drain into the ground. This will result in soil and groundwater contamination.

Do not dispose into the environment, in drains or in water courses.

Waste arising from a spillage or tank cleaning should be disposed of in accordance with prevailing regulations, preferably to a recognised collector or contractor. The competence of the collector or contractor should be established beforehand.

Disposal should be in accordance with applicable regional, national, and local laws and regulations.

Local regulations may be more stringent than regional or national requirements and must be complied with.

MARPOL - see International Convention for the Prevention of Pollution from Ships (MARPOL 73/78) which provides technical aspects at controlling pollutions from ships.

Contaminated packaging

Dispose in accordance with prevailing regulations, preferably to a recognized collector or contractor. The competence of the collector or contractor should be established beforehand.

#### **SECTION 14: Transport information**

14.1 UN number or ID number

ADN : Not regulated as a dangerous good
ADR : Not regulated as a dangerous good
RID : Not regulated as a dangerous good
IMDG : Not regulated as a dangerous good

14.2 UN proper shipping name

ADN : Not regulated as a dangerous good
ADR : Not regulated as a dangerous good
RID : Not regulated as a dangerous good
IMDG : Not regulated as a dangerous good

14.3 Transport hazard class(es)

ADN : Not regulated as a dangerous good
ADR : Not regulated as a dangerous good
RID : Not regulated as a dangerous good

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: - 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

**IMDG** : Not regulated as a dangerous good

14.4 Packing group

ADN : Not regulated as a dangerous good
ADR : Not regulated as a dangerous good
RID : Not regulated as a dangerous good
IMDG : Not regulated as a dangerous good

14.5 Environmental hazards

ADN : Not regulated as a dangerous good
ADR : Not regulated as a dangerous good
RID : Not regulated as a dangerous good
IMDG : Not regulated as a dangerous good

14.6 Special precautions for user

Remarks : Special Precautions: Refer to Section 7, Handling & Storage,

for special precautions which a user needs to be aware of or

needs to comply with in connection with transport.

14.7 Maritime transport in bulk according to IMO instruments

Pollution category : Z Ship type : 3

Product name : Diethylene glycol

**Additional Information**: This product may be transported under nitrogen blanketing.

Nitrogen is an odourless and invisible gas. Exposure to nitrogen enriched atmospheres displaces available oxygen which may cause asphyxiation or death. Personnel must observe strict safety precautions when involved with a confined space

entry.

Transport in bulk according to Annex II of Marpol and the IBC

Code

## **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

REACH - List of substances subject to authorisation

(Annex XIV)

REACH - Candidate List of Substances of Very High

Concern for Authorisation (Article 59).

Product is not subject to Authorisation under REACH.

: This product does not contain substances of very high concern (Regulation (EC) No 1907/2006 (REACH),

Article 57).

According to EC No 1907/2006 as amended as at the date of this SDS

# **Diethylene Glycol**

Version Revision Date.: SDS Number: Date of last issue: 1.0 19.09.2025 800001033914 Print Date. 21.09.2025

#### Other regulations:

The regulatory information is not intended to be comprehensive. Other regulations may apply to this material.

Law on Chemicals; Ordinance on the protection of workers of exposure to dangerous chemicals at work, exposure limit values and biological limit values, in Croatian; Waste management Act; Rules on waste transport and disposal.

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) and Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (CLP); Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

#### **Further information**

Training advice : Provide adequate information, instruction and training for op-

erators.

Other information : For Industry guidance and tools on REACH please visit the

CEFIC website at http://cefic.org/Industry-support.

The substance does not fulfill all screening criteria for persistence, bioaccumulation and toxicity and hence is not consid-

ered to be PBT or vPvB.

A vertical bar (|) in the left margin indicates an amendment

from the previous version.

This product is classified as R22/H302 Harmful if swallowed. The same control advice applies to all uses of this product and is included in Section 8 of the SDS. An exposure scenario is

not presented.

SECTION 1	EXPOSURE SCENARIO TITLE
Title	Functional Fluids- Industrial
Use Descriptor	Sector of Use: SU 3 Process Categories: PROC1, PROC2, PROC3, PROC4, PROC8a, PROC8b, PROC9 Environmental Release Categories: ERC7
Scope of process	Use as functional fluids e.g. cable oils, transfer oils, coolants, insulators, refrigerants, hydraulic fluids in industrial equipment including maintenance and related material transfers.

SECTION 2	OPERATIONAL CONDITIONS AND RISK MANAGEMENT MEASURES		
Additional Information	No exposure assessment presented for the environment.		
Section 2.1	Control of Worker Exposure		
Product Characteristics			
Physical form of product	Liquid, vapour pressure < 0.5 kPa at STP		
Concentration of the Substance in Mixture/Article	Covers percentage substance in the product up to 100%., Unless stated otherwise.,		
Frequency and Duration o	f Use		
Covers daily exposures up to	o 8 hours (unless stated differently).		
Other Operational Condition	ons affecting Exposure		
Assumes a good basic stand	dard of occupational hygiene is implemented.		
Assumes use at not more th	an 20°C above ambient temperature (unless stated differently).		
Contributing Scenarios	Risk Management Measures		
Bulk transfersDedicated facilityPROC8b	No specific measures identified.		
Bulk transfersNon- dedicated facilityPROC8a	Ensure material transfers are under containment or extract ventilation.		
	Wear chemically resistant gloves (tested to EN374) in combination with 'basic' employee training.		
Filling of arti- cles/equipmentPROC9	Fill containers/cans at dedicated filling points supplied with local extract ventilation.  Wear chemically resistant gloves (tested to EN374) in combination with 'basic' employee training.		
Filling/ preparation of equipment from drums or	Use dedicated equipment. Wear chemically resistant gloves (tested to EN374) in combi-		

nation with 'basic' employee training.

According to EC No 1907/2006 as amended as at the date of this SDS

SECTION 1	EXPOSURE SCENARIO TITLE
Title	Use in Cleaning Agents - Consumer
Use Descriptor	Sector of Use: SU 21 Product Categories: PC3, PC35 Environmental Release Categories: ERC8a, ERC8d
Scope of process	Covers general exposures to consumers arising from the use of household products sold as washing and cleaning products, aerosols, coatings, de-icers, lubricants and air care products.

SECTION 2	OPERATIONAL CONDITIONS AND RI	SK MANAGEMENT
Additional Information	No exposure assessment presented for	the environment.
Section 2.1	Control of Consumer Exposure	
Product Characteristics		
Physical form of product	Liquid, vapour pressure > 10 Pa at STP	
Frequency and Duration of	Use	
Unless stated otherwise.		
Covers use up to (days/year)	:	365
Unless otherwise stated.		
covers use up to (times/day of	of use):	4
	Covers exposure up to (hours/event): 8	
Other Operational Condition	ns affecting Exposure	
Unless stated otherwise.		
Covers use at ambient temper	eratures.	
Covers use in room size of 2	0m3	
Covers use under typical hou	usehold ventilation.	
Product Categories	OPERATIONAL CONDITIONS AND RI	SK MANAGEMENT
Air care products Air care, instant action (aerosol sprays).	Unless stated otherwise. Covers concentrations up to 1 %	
	covers use up to 365 day/year	
	Covers use up to 4 times/day of use	
	For each use event, covers amount up to 0,1 g	
	Covers use under typical household ver

# **Diethylene Glycol**

	Covers use in room size of 20m3
	for each use event Covers exposure up to 0,25 hours/event
Air care products Air care, continuous action (solid and liquid).	Unless stated otherwise. Covers concentrations up to 1 %
	covers use up to 364 day/year
	covers use up to 1 times/day of use
	covers skin contact area up to (cm2): 35,70 cm2
	For each use event, covers amount up to 0,48 g
	Covers use under typical household ventilation.
	Covers use in room size of 20m3
	for each use event Covers exposure up to 8,00 hours/event
Washing and cleaning products (including solvent based products) Laundry and dish washing products.	Unless stated otherwise. Covers concentrations up to 5 %
	covers use up to 364 day/year
	Covers use up to 1 times/day of use
	covers skin contact area up to (cm2): 857,50
	For each use event, covers amount up to 15 g
	Covers use under typical household ventilation.
	Covers use in room size of 20m3
	for each use event Covers exposure up to 0,5 hours/event
Washing and cleaning products (including solvent based products) Cleaners, liquids (all purpose cleaners, sanitary products, floor cleaners, glass cleaners, carpet cleaners, metal cleaners).	Unless stated otherwise. Covers concentrations up to 20 %
	covers use up to 364 day/year
	Covers use up to 1 times/day of use
	covers skin contact area up to (cm2): 857,50 cm2
	for each use event, covers amount up to (g): 27 g
	Covers use under typical household ventilation.
	Covers use in room size of 20m3
	for each use event Covers exposure up to 0,33 hours/event
Washing and cleaning products (including solvent based products) Cleaners, trigger sprays (all purpose cleaners, sanitary products, glass cleaners).	Unless stated otherwise. Covers concentrations up to 15 %
	covers use up to 364 day/year
	Covers use up to 1 times/day of use
	covers skin contact area up to (cm2): 428,00 cm2
	For each use event, covers amount up to 35 g
