

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version	Revision Date.:	SDS Number:	Date of last issue: -
1.0	17.02.2026	800003001320	Print Date. 18.02.2026

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name	: KDP Solution
Product code	: U3877
Other means of identification	: Phosphate rich stream

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub- stance/Mixture	: Fertilizer raw materials or intermediates
Uses advised against	: This product must not be used in applications other than those listed in Section 1 without first seeking the advice of the supplier.

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier	: Shell Chemicals Europe B.V. PO Box 2334 3000 CH Rotterdam Netherlands
Telephone	: +31 (0)10 441 5137 / +31 (0)10 441 5191
Telefax	: +31 (0)20 716 8316 / +31 (0)20 713 9230
Contact for Safety Data Sheet	: sccmsds@shell.com

1.4 Emergency telephone number

+44 (0) 1235 239 670
National Poison Information Centre (NVIC): Tel. nr. +31(0)88 755 8000 (24 hrs a day and 7 days a week).
Only for the purpose of informing medical personnel.

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Not classified

Not a hazardous substance or mixture according to Regulation (EC) No. 1272/2008.

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version	Revision Date.:	SDS Number:	Date of last issue: -
1.0	17.02.2026	800003001320	Print Date. 18.02.2026

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Hazard pictograms : No Hazard Symbol required
Signal word : No signal word

Hazard statements :
PHYSICAL HAZARDS:
Not classified as a physical hazard according to CLP criteria.
HEALTH HAZARDS:
Not classified as a health hazard under CLP criteria.
ENVIRONMENTAL HAZARDS:
Not classified as environmental hazard according to CLP criteria.

Precautionary statements : **Prevention:**
P233 Keep container tightly closed.

Response:
No precautionary phrases.

Storage:
P403 Store in a well-ventilated place.

Disposal:
P501 Dispose of contents/ container to an approved waste disposal plant.

2.3 Other hazards

This mixture does not contain any REACH registered substances that are assessed to be a PBT or a vPvB.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.2 Mixtures

Components

Chemical name	CAS-No. EC-No.	Classification	Concentration (% w/w)
---------------	-------------------	----------------	--------------------------

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version 1.0 Revision Date.: 17.02.2026 SDS Number: 800003001320 Date of last issue: -
Print Date. 18.02.2026

	Index-No. Registration number		
Water	7732-18-5 231-791-2		83 - 88
Phosphoric acid monopotassium salt	7778-77-0 231-913-4 01-2119490224-41		12 - 15
dipotassium hydrogenorthophosphate	7758-11-4 231-834-5 01-2119493919-15		0 - 2

SECTION 4: First aid measures

4.1 Description of first aid measures

- General advice : Not expected to be a health hazard when used under normal conditions.
- Protection of first-aiders : When administering first aid, ensure that you are wearing the appropriate personal protective equipment according to the incident, injury and surroundings.
- If inhaled : No treatment necessary under normal conditions of use.
If symptoms persist, obtain medical advice.
- In case of skin contact : Remove contaminated clothing. Flush exposed area with water and follow by washing with soap if available.
If persistent irritation occurs, obtain medical attention.
- In case of eye contact : Flush eye with copious quantities of water.
Remove contact lenses, if present and easy to do. Continue rinsing.
If persistent irritation occurs, obtain medical attention.
- If swallowed : In general no treatment is necessary unless large quantities are swallowed, however, get medical advice.

4.2 Most important symptoms and effects, both acute and delayed

- Symptoms : Possible respiratory irritation signs and symptoms may include a temporary burning sensation of the nose and throat, coughing, and/or difficulty breathing.
Eye irritation signs and symptoms may include a burning sensation, redness, swelling, and/or blurred vision.

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version	Revision Date.:	SDS Number:	Date of last issue: -
1.0	17.02.2026	800003001320	Print Date. 18.02.2026

4.3 Indication of any immediate medical attention and special treatment needed

Treatment : Treat symptomatically.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media : Not applicable

Unsuitable extinguishing media : Not applicable

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire-fighting : Not applicable

5.3 Advice for firefighters

Further information : Non-flammable liquid.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions : 6.1.1 For non emergency personnel:
Do not breathe mists, aerosols.
Shut off leaks, if possible without personal risks.
6.1.2 For emergency responders:
Do not breathe mists, aerosols.
Shut off leaks, if possible without personal risks.

6.2 Environmental precautions

Environmental precautions : Take measures to minimise the effects on groundwater.
Contain residual material at affected sites to prevent material from entering drains (sewers), ditches, and waterways.
Prevent from spreading or entering into drains, ditches or rivers by using sand, earth, or other appropriate barriers.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up : For small liquid spills (< 1 drum), transfer by mechanical means to a labeled, sealable container for product recovery or safe disposal. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove contaminated soil and dispose of safely.
For large liquid spills (> 1 drum), transfer by mechanical means such as vacuum truck to a salvage tank for recovery or

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version	Revision Date.:	SDS Number:	Date of last issue: -
1.0	17.02.2026	800003001320	Print Date. 18.02.2026

safe disposal. Do not flush away residues with water. Retain as contaminated waste. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove contaminated soil and dispose of safely. Prevent from spreading or entering into drains, ditches or rivers by using sand, earth, or other appropriate barriers.

6.4 Reference to other sections

For guidance on selection of personal protective equipment see Section 8 of this Safety Data Sheet., Notify authorities if any exposure to the general public or the environment occurs or is likely to occur., For guidance on disposal of spilled material see Section 13 of this Safety Data Sheet., Local authorities should be advised if significant spillages cannot be contained.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

- | | | |
|-------------------------|---|--|
| Technical measures | : | Avoid breathing of or direct contact with material. Only use in well ventilated areas. Wash thoroughly after handling. For guidance on selection of personal protective equipment see Section 8 of this Safety Data Sheet.
Use the information in this data sheet as input to a risk assessment of local circumstances to help determine appropriate controls for safe handling, storage and disposal of this material.
Prevent spillages. |
| Advice on safe handling | : | Avoid prolonged or repeated contact with skin.
When using do not eat or drink.
Earth all equipment.
Use local exhaust ventilation if there is risk of inhalation of vapours, mists or aerosols. |
| Product Transfer | : | Keep containers closed when not in use. Even when the product is not itself flammable, such vapours may be present as a result of operations involving a previously handled product, or faulty vapour recovery systems. |
| Hygiene measures | : | Ensure that all local regulations regarding handling and storage facilities are followed. |

7.2 Conditions for safe storage, including any incompatibilities

- | | | |
|--|---|---|
| Further information on storage stability | : | Drum and small container storage:
Drums should be stacked to a maximum of 3 high.
Use properly labeled and closable containers.
Tank storage:
Tanks must be specifically designed for use with this product.
Bulk storage tanks should be diked (bunded).
Refer to section 15 for any additional specific legislation covering the packaging and storage of this product. |
|--|---|---|

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version	Revision Date.:	SDS Number:	Date of last issue: -
1.0	17.02.2026	800003001320	Print Date. 18.02.2026

Packaging material : Suitable material: For containers and container linings, use materials specifically approved for use with this product.
Unsuitable material: Compatibility should be checked with the manufacturer.

7.3 Specific end use(s)

Specific use(s) : Please refer to section 16 and/or the annexes for the registered uses under REACH.

Not applicable.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Biological occupational exposure limits

No biological limit allocated.

8.2 Exposure controls

Engineering measures

The level of protection and types of controls necessary will vary depending upon potential exposure conditions. Select controls based on a risk assessment of local circumstances. Appropriate measures include:

Use sealed systems as far as possible.
Local exhaust ventilation is recommended.
Eye washes and showers for emergency use.

General Information

Always observe good personal hygiene measures, such as washing hands after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Practice good housekeeping.

Define procedures for safe handling and maintenance of controls.

Educate and train workers in the hazards and control measures relevant to normal activities associated with this product.

Ensure appropriate selection, testing and maintenance of equipment used to control exposure, e.g. personal protective equipment, local exhaust ventilation.

Do not ingest. If swallowed, then seek immediate medical assistance.

Personal protective equipment

Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

The provided information is made in consideration of the PPE directive (Council Directive 89/686/EEC) and the CEN European Committee for Standardisation (CEN) standards.

Eye protection : Wear goggles for use against liquids and gas.
Wear dust-tight mono-goggles for use against fine dust parti-

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version 1.0	Revision Date.: 17.02.2026	SDS Number: 800003001320	Date of last issue: - Print Date. 18.02.2026
----------------	-------------------------------	-----------------------------	---

cles.
If a local risk assessment deems it so then chemical splash goggles may not be required and safety glasses may provide adequate eye protection.
Approved to EU Standard EN166.

Hand protection

Remarks : Personal hygiene is a key element of effective hand care. Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly. Application of a non-perfumed moisturizer is recommended. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. For continuous contact we recommend gloves with breakthrough time of more than 240 minutes with preference for > 480 minutes where suitable gloves can be identified. For short-term/splash protection we recommend the same but recognize that suitable gloves offering this level of protection may not be available and in this case a lower breakthrough time maybe acceptable so long as appropriate maintenance and replacement regimes are followed. Glove thickness is not a good predictor of glove resistance to a chemical as it is dependent on the exact composition of the glove material.

Select gloves tested to a relevant standard (e.g. Europe EN374, US F739). When handling heated product wear heat resistant gloves. When prolonged or frequent repeated contact occurs, Nitrile gloves may be suitable. (Breakthrough time of > 240 minutes.) For incidental contact/splash protection Neoprene, PVC gloves may be suitable. Glove thickness should be typically greater than 0.35 mm depending on the glove make and model.

Skin and body protection : Skin protection is not ordinarily required beyond standard work clothes.

Respiratory protection : It is good practice to wear chemical resistant gloves.
If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation. Check with respiratory protective equipment suppliers. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter. Where air-filtering respirators are unsuitable (e.g. airborne concentrations are high, risk of oxygen deficiency, confined space) use appropriate positive pressure breathing apparatus.

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

Version	Revision Date.:	SDS Number:	Date of last issue: -
1.0	17.02.2026	800003001320	Print Date. 18.02.2026

All respiratory protection equipment and use must be in accordance with local regulations.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	:	liquid
Colour	:	Brown to black
Odour	:	Data not available
Odour Threshold	:	Data not available

Melting point/freezing point	:	Data not available
------------------------------	---	--------------------

Initial boiling point and boiling range	:	100 °C
---	---	--------

Flammability

Flammability (solid, gas)	:	Not applicable
---------------------------	---	----------------

Lower explosion limit and upper explosion limit / flammability limit

Upper explosion limit / Upper flammability limit	:	Not applicable
--	---	----------------

Lower explosion limit / Lower flammability limit	:	Not applicable
--	---	----------------

Flash point	:	Not applicable
-------------	---	----------------

Auto-ignition temperature	:	Not applicable
---------------------------	---	----------------

pH	:	approximately 4,5
----	---	-------------------

Viscosity

Viscosity, dynamic	:	Data not available
--------------------	---	--------------------

Viscosity, kinematic	:	Data not available
----------------------	---	--------------------

Solubility(ies)

Water solubility	:	Miscible.
Solubility in other solvents	:	Data not available

Relative density	:	Data not available
------------------	---	--------------------

Density	:	1,1092 g/cm3
---------	---	--------------

Relative vapour density	:	Data not available
-------------------------	---	--------------------

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version	Revision Date.:	SDS Number:	Date of last issue: -
1.0	17.02.2026	800003001320	Print Date. 18.02.2026

Particle characteristics	
Particle size	: Data not available

9.2 Other information

Explosive properties	: Classification Code: Not classified.
Oxidizing properties	: Not applicable
Evaporation rate	: Data not available
Conductivity	: This material is not expected to be a static accumulator.

SECTION 10: Stability and reactivity

10.1 Reactivity

10.2 Chemical stability

Stable under normal conditions of use.

10.3 Possibility of hazardous reactions

Hazardous reactions	: No hazardous reaction is expected when handled and stored according to provisions
---------------------	---

10.4 Conditions to avoid

Conditions to avoid	: Heat
---------------------	--------

10.5 Incompatible materials

Materials to avoid	: Not applicable
--------------------	------------------

10.6 Hazardous decomposition products

Not applicable

SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

Information on likely routes of exposure	: Skin and eye contact are the primary routes of exposure although exposure may occur through inhalation or following accidental ingestion.
--	---

Acute toxicity

Product:

Acute oral toxicity	: Remarks: Low toxicity LD50 >2000 mg/kg
---------------------	---

Acute inhalation toxicity	: Remarks: Low toxicity
---------------------------	-------------------------

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version	Revision Date.:	SDS Number:	Date of last issue: -
1.0	17.02.2026	800003001320	Print Date. 18.02.2026

LC50>5000 ppm
Based on available data, the classification criteria are not met.

Acute dermal toxicity : (Rabbit): Remarks: Low toxicity
LD50 >2000 mg/kg

Acute toxicity (other routes of administration) : Remarks: Inhalation of vapours or mists may cause irritation to the respiratory system.

Skin corrosion/irritation

Product:

Remarks : Not irritating to skin.

Serious eye damage/eye irritation

Product:

Remarks : Not irritating to eye.

Respiratory or skin sensitisation

Product:

Remarks : Not a sensitiser.
Based on available data, the classification criteria are not met.

Germ cell mutagenicity

Product:

Genotoxicity in vivo : Remarks: Not considered to be a mutagenic hazard.

Germ cell mutagenicity- Assessment : This product does not meet the criteria for classification in categories 1A/1B.

Carcinogenicity

Product:

Remarks : Not a carcinogen.
Based on available data, the classification criteria are not met.

Carcinogenicity - Assessment : This product does not meet the criteria for classification in categories 1A/1B.

Material	GHS/CLP Carcinogenicity Classification
----------	--

SAFETY DATA SHEET.

According to EC No 1907/2006 as amended as at the date of this SDS

KDP Solution

Version 1.0 Revision Date.: 17.02.2026 SDS Number: 800003001320 Date of last issue: -
Print Date. 18.02.2026

Water	No carcinogenicity classification.
Phosphoric acid monopotassium salt	No carcinogenicity classification.
dipotassium hydrogenorthophosphate	No carcinogenicity classification.

Reproductive toxicity

Product:

Effects on fertility : Remarks: Not a developmental toxicant., Does not impair fertility.

Reproductive toxicity - Assessment : This product does not meet the criteria for classification in categories 1A/1B.

STOT - single exposure

Product:

Remarks : Inhalation of vapours or mists may cause irritation to the respiratory system.

Aspiration toxicity

Product:

Not an aspiration hazard., Based on available data, the classification criteria are not met.

11.2 Information on other hazards

Endocrine disrupting properties

Product:

Assessment : The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Further information

Product:

Remarks : Classifications by other authorities under varying regulatory frameworks may exist.

SAFETY DATA SHEET.

SECTION 12: Ecological information

12.1 Toxicity

Product:

Toxicity to fish	:	Remarks: LL/EL/IL50 > 100 mg/l Practically non toxic: Based on available data, the classification criteria are not met.
Toxicity to daphnia and other aquatic invertebrates	:	Remarks: LL/EL/IL50 > 100 mg/l Practically non toxic: Based on available data, the classification criteria are not met.
Toxicity to algae/aquatic plants	:	Remarks: LL/EL/IL50 > 100 mg/l Practically non toxic: Based on available data, the classification criteria are not met.
Toxicity to fish (Chronic toxicity)	:	Remarks: Data not available
Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity)	:	Remarks: Data not available
Toxicity to microorganisms	:	Remarks: LL/EL/IL50 > 100 mg/l Practically non toxic: Based on available data, the classification criteria are not met.

12.2 Persistence and degradability

Product:

Biodegradability	:	Remarks: Readily biodegradable.
------------------	---	---------------------------------

12.3 Bioaccumulative potential

Product:

Bioaccumulation	:	Remarks: Does not bioaccumulate significantly.
-----------------	---	--

12.4 Mobility in soil

Product:

Mobility	:	Remarks: Not applicable
----------	---	-------------------------

SAFETY DATA SHEET.

12.5 Results of PBT and vPvB assessment

Product:

Assessment : This mixture does not contain any REACH registered substances that are assessed to be a PBT or a vPvB..

12.6 Endocrine disrupting properties

Product:

Assessment : The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

12.7 Other adverse effects

Product:

Additional ecological information : None

SECTION 13: Disposal considerations

13.1 Waste treatment methods

Product	: Recover or recycle if possible. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste classification and disposal methods in compliance with applicable regulations. Do not dispose into the environment, in drains or in water courses. Do not dispose of tank water bottoms by allowing them to drain into the ground. Waste arising from a spillage or tank cleaning should be disposed of in accordance with prevailing regulations, preferably to a recognised collector or contractor. The competence of the collector or contractor should be established beforehand.
Contaminated packaging	: Send to drum recoverer or metal reclaimers. Drain container thoroughly. Do not pollute the soil, water or environment with the waste container. Comply with any local recovery or waste disposal regulations.
